About us:

The Elsa Foundation is a non-profit charitable trust that focuses on the conservation of biodiversity, the prevention of cruelty to animals, and animal rights issues affecting both domestic and wild animals. It opposes keeping wild animals in captivity.

We have travelled to several countries to study the best practices and implement them in India.

The foundation supports various government bodies in informed policy-making and decision-making on critical issues affecting biodiversity and animal rights.

Our work areas are research, advocacy, awareness, publication, and support in policy and decision-making.
